MEMPHIS APPEAL. SATURDAY : : DECEMBER 5, 1885

SOUTHERN AGRICULTURAL LABOR The subject of our home labor is eviiently to some extent in an unsettled state, and, if we may judge by what than 4.75,840 pieces sent there by negli-we see at times in the Southern country press, requires careful and bindly were no less than 284,355 misdirected let Where the colored people are paid regularly and at a fair rate of compensation little difficulty appears to be experienced, but while the old system has been disrupted by war no of letters whose owners could not be found; of letters with postage unpaid there were of letters with postage unpaid there were as far as possible the labor should be fixed and permanent. A wandering laborer, with no ties, wants the chief incentive to good work. Laborers with families should business. Education of the young is of primary importance, for as time goes on a higher order of implements and more machinery comes into use on the farm, and the laborer must have the necessary intelligence to use them, and that intelligence must be cultivated in childhood. If our Southern farmers desire satisfactory labor they must look for it elsewhere than from ignorance. They must also see that his comforts and welfare. A YANKEE RIVER IMPROVEMENT BERMON.

The information given by the Washington correspondent of the APPEAL that there are indications that, when Congress ssembles, more attention than ever before will be paid to the needs of Southern harbors and rivers, is gratifying. He says that even the Eastern press is showing a friendly feeling upon the subject. We Upon I we Defenseless Women by a No are glad to learn that fact, but are sorry to The Boston Advertiser, like a good puritan, reaches upon the subject occasionally. Its last sermon came out on Monday; the text was not announced, but it was that to him that hath shall be given and from him gro suddenly entered and locked the do that hath not shall be taken away that which he hath. It urged a new reason why and harbors as the East is, and the sernon concluded with these words: "Outlays in the South, like those of the North, should be proportional to the trade dependent upon them." From this precious specimen of logic it follows that when, owing to layer define the proportional to the trade defiguring her in a most revolting manner. The black villain they made to be a senseless of the proportional to the trade definition of the proportional to the trade description of the proportion of th place has so improved its communications as to bave become the center of a vas trade, being rich it ought to be helped for to him that bath shall be given. Places that have been neglected, the adroit manipulation in Congress of experienced Eastern managers having kept them long in the background, being poor, ought to get little or nothing, for from him that hath nothing shall be taken away from that which he hath. The 'ong and the short of the matter is, that because the East has always had the bulk of the appropriations it always ought to have m. We are glad to learn that there is a change of tone in the Eistern press but, at all events, be that tone what i may, the West and South have learned nough as to the extent of their power in Congress to demand a reversal of proceedngs, so that the big Southwest shall get all that belongs to it, and the little East what it is justly entitled to.

They also lors for the spoils that the plunder of the in fidels will yield, and are preparing to seiz) them. The fertile lands of the blue Nile are in their hands; they have repaired the steamers that fell into their power and are navigating the upper Nile. Their conquests include a plentiful supply of arms and ammunition. The capture of Khartoum meant more than the loss of ordon, and the Arabs are to-day more dable than they ever were. Down to the second cataract, with the exception of Kassala, if it vet hold out the Arabe bend of the Nile in upper Dongola the British held the key to the river below, and could prevent second cataract, and there is no entire seeurity above Assonan. Military men best acquainted with the country have repeat edly assured the English government that if they retreated from the second cataract hey would have to face the Arabs on the lower Nile. Thus there is danger of an attack upon Egypt with Cairo itself threat ened. Thus things are ominous of future struggles before the next hot season set be met as invaders. Should resistance ail to be made at a sufficiently early period, and should the Egyptian people who still reverence Arabi Bey join the in vaders, it is evident that a severe conflict is impending. And dyspeptic stomachs are usually found in conjunction. Vitality is lacking in all three. How can this be created? Simply by using Hostetter's Stomach Bitters with regularity, abstaining from habits inconsonant with health, and by the use of a digestible diet. As an initial step toward the reinforcement of a depleted system, a resort to Hostetter's Stomach Bitters is most desirable, since it corrects acidity consequent upon a vitation of the gastric juices and the presence of bite in the stomach, and having regulated and, as it were, lubricated the digestive mechanism, sets it and keeps it at work. An immediate gain in vigor is the result. The food is converted into blood, upon which the system draws for nutrition, the nerves as they acquire vigor become tranquis, the muscular fiber gains substance and hardness, and appetite and sleep improve. Necessity for Him Occupying the Chai

Chicago, Ill., December 4.—Dr. James M. Hutchinson, one of the surgeons of the Cook County Hospital, last Tuesday performed a peculiar surgical operation, which he thus discribes: A young man of thirty-five years was taken to his mother's home on, Loffin street, on November 4th, sick in a peculiar way. On November 5th I was called to see him. He had led the rapid life of a bachelor who selded may be stomach on him. I made an incision, and drew off three quarts of milky white fluid. I could not account for it. I could find no light in medical literature. I kept tapping him, and in twenty-seven days with the fluid was milky white I could not tell. I decided upon an investigation, and on Tuesday I made an incision in the abdomen. I drained him out, and made an opening six inches in length, laying the intestines bare. They looked natural, but I reached in after his liver, and found a malignant sore, cancerous, I should say. Then I went for his spleen and found it adhering to the abdominal ways. But this did not account for the milky color of the secretions, and I traced up the lacteal duct which empties into the left subclavical vein and found a rupture. The fluid, instead of going to nourish the body, had been going to color the matter in the abdominal cavity. I was satisfied. I closed up the opening in the duct, washed the man out, carbolized him, stitched up the opening, but left a vent tube. The man will get well.

The Unfortunate Dolphin.

The Unfortunate Dolphin. Washington, December 4.—A special order was received at the Brooklyn Navy-Yard yesterday, directing that the Dolphin be equipped as a man-of-war, and fitted up for a trial trip of six weeks at sea. While her anchor was being hoisted a rope slipped and the fluke struck the side of the vessel, breaking one of the iron plates. This will cause a delay of several days. She had been provisioned for two months. She will be under the command of Capt. R. W. Meade.

New York, December 4.—A regular meeting of the Board of Trustees of the actors' fund took place yesterday. The reports show that during the pact three months the fend had given relief to fortynine persons and buried twelve. Ten lots in Evergreen cemetery had been purchased and ten more would be in the near future. GALVESTON, TEX, December 4.—Alderman E. A. Smith was yesterday arrested charged with embezzling the funds of the Screwmen's Association while treasurer. Smith has been a local politician of some prominence. The defalcation amounts to \$4630, while Smith's indebtedness to friends amounts to \$10,000 additional.

CHICAGO, ILL., December 4.—The Signal Service reports this morning four inches of enow at Daluth, with snow still falling at Fargo and Jamestown. Snow is also predicted for this region. Strike at Cincinnati CINCINNATI, O., December 4.—It is esti-mated that by to-morrow night 2500 em-ployes of shoe factories will be out on a strike.

DR. J. BRADFIELD'S EMALE REGULATOR

This famous remedy most happily meets the demand of the age for woman's peculiar and multiform afflictions. It is a remety for WOMAN ONLY, and for one SyB. I al. CLASS of her diseases. It is a specific for certain diseased conditions of the womb, and proposes to so control the Munsternia and invessionities of Woman's EGNTHLY S. Can new.

Its proprietors claim for it no other medical property; and to doubt the fact that this medicine does positively possess such controlling and regulating powers is simply to discredit the voluntary testia only of thousands of living witnesses who are to-day exulting in the restoration to sound health and happiness.

Bradfield's Female Regulator s strictly a vegetable compound, and is the pro-uct of medical science and practical experience lirected toward the benefit of SUFFERING WOMAN :

It is the studied prescription of a learned physician, whose specialty was WOMAN, and whose fame became enviable and boundless because of his wonderful success in the treatment and cure of female complaints. THE REGULATOR is the GRANDEST REMEDY known, and richly de-WOMAN'S BEST FRIEND

Because it controls a class of functions the various derangements of which cause more ill heaft than all other causes combined, and thus rescue her from a long train of afflictions which sorely embitter her I fe and prematurely end her existence. Oh, what a multitude of living witnesses can testify to its charming effects! Wowan, take to your confidence this PRECIOUS BOON OF HEALTH! It will relieve you of nearly all the complain peculiar to your sex. Rely upon it as your safe guard for beatth, happiness and long life. Sold by all druggists.
